This dispute coming on for final hearing on Wednesday, the 1st day of July, 1981 upon perusing the reference, claim and counter statements and all other material papers on record and upon hearing the arguments of Thiru S. Rajaram, General Secretary of the Union for the workmen and of Thiru B. S. Parameswaran for Thiruvalluvar Anand Das Gupta and Sagar, Advocates for the Management and this dispute having stood over till this day for consideration this Tribunal made the following :

## AWARD

This is an Industrial Dispute between the workmen and the Management of Central Bank of India, Madras referred to this Tribunal for adjudication under Section 10(1)(d) of the Industrial Disputes Act, 1947 by the Government of India in Order No. L-12012(25)/80-D.IIA dated 24-3-1981 of the Ministry of Labour, in respect of the following issue :

Whether the action of the management of Central Bank of India in treating the transfer of Shri E. Lakshminarayana Perumal, Assistant Cashier from Addison Buildings Branch, Madras, to Madurai Division and then to Tuticorin as a 'request Transfer' and thus depriving him of consequential benefits and rights, is justified? If not, to what relief is the workman concerned entitled?

(2) Facts leading upto the dispute are as follows : The Management is Central Bank of India, No. 159, Greams Road, Madras-600 006, Tamil Nadu. The reference made by the Government of India, Ministry of Labour relates to the benefits and rights to which Thiru E. Lakshminarayana Perumal, an employee of the Management would be entitled to, consequent on his transfer from Madras to Tuticorin. The employee Thiru E. Lakshminarayana Perumal is a graduate and joined the services of the Management-Bank as Assistant Cashier-cum-Godown Keeper at Addison Buildings branch, Madras from 1-12-1971. He is a native of Tuticorin, Tirunelveli District which comes within the Administrative Divisional Headquarters of the Management at Madurai. The Management has three Administrative Divisional Headquarters, viz., at Madras, Madurai and Coimbatore. The branches situated in the revenue districts of Madurai, Ramanathapuram, Thirunelveli and Kanyakumari are under the administrative jurisdiction of Madurai Division. The claimant made a request for transfer to Tuticorin by his letter dated 2-12-1975 Ex. M-1. Ex. M-14 is the photostat copy of the extract from the

Request Transfer Register maintained by the Divisional Office, Madurai. From Ex. M-14, the request of the claimant dated 2-12-1975 has been entered in the register and also the fact that he wants a transfer to his native place Tuticorin, Tirunelveli District. On 6-12-1976, the Claimant again sent a reminder to the Management Ex. M-2 reminding the Management of his representation submitted on 2-12-1975 under Ex. M-1. It may be noted that the case of the employee Thiru E. Lakshminarayana Perumal is espoused by Central Bank of India Staff Union, No. 1, Pinjala Subramaniam Road, T. Nagar, Madras-17. The General Secretary of this Union again addressed the Management on behalf of the Claimant on 7-3-1977—vide Ex. M-3 with a request that the Claimant is qualified for a transfer to Tuticorin under the existing transfer policy of the Management and that prompt compliance in his matter will be very much appreciated. On 15th June, 1974 the Management entered into a memorandum of settlement between the recognised Union Central Bank of India Employees Union, Madras and the Management. Ex. M-10 is a memorandum of settlement entered between the Management and the recognised Union of employees with regard to transfers on request of staff from one Station to another. The terms and conditions are embodied in Ex. M-10. As error which was crept in Ex. M-10 has been subsequently rectified by another memorandum of settlement between the Management and the recognised Union on 24-10-1974—vide Ex. M-12. This is the existing transfer policy of the Management and which has been specifically referred to by the petitioner Union in Ex. M-5. On 11-5-1977, the Assistant General Manager of the Management-Bank has passed the order Ex. M-4 transferring the Claimant to Madurai Division in the same capacity and advising the Divisional Office to relieve him at the close of office hours on 14-5-1977 with instructions to report to Divisional Manager, Madurai at the earliest to receive further orders of posting. It is not clear whether the advice tendered by the Assistant General Manager under Ex. M-4 was acted upon. However, as seen from Ex. W-1 on 27th May, 1977 the Branch Manager, Addison Buildings Branch of the Management relieved the Claimant Thiru E. Lakshminarayana Perumal at the close of business of 27th May, 1977 with instructions to report to Madurai Divisional office on 28th May, 1977 positively and when the Claimant Thiru E. Lakshminarayana Perumal who has been examined as W.W.1 reported at Madurai he was given another memo Ex. W-2 dated 28th May, 1977 transferring him to Tuticorin Office and he was instructed to report for duty at Tuticorin office on 30th May, 1977 positively and W.W.1 reported for duty at Tuticorin on 30th May, 1977. The present controversy relates to T.A. for transfer from Madras to Tuticorin. In the transfer is deemed to be one of request transfer, then as per the transfer policy statement already referred to the Claimant W.W.1 could not be entitled to T.A. benefits, while if it is found that the transfer of the Claimant was on administrative ground, then he would be entitled to all the transfer benefits. Under these circumstances, the one and the only crucial point that has to be decided is whether the Claimant W.W.1's transfer from Madras to Tuticorin should be held as a 'request transfer' or as an 'administrative transfer'. Depending on the answer to this question, the Claimant will be entitled to his attendant benefit.

(3) Ex. M-10, the memorandum of settlement entered into between the Management and the recognised Union sets out various terms and conditions and rights and liabilities relating to transfer of employees from one Station to another. Clause 4(b) lays down the conditions under which an employee can justifiably make a request for transfer. Admittedly, the employee W.W.1 entered the bank's service on 1-12-1971 and so when he made the application for transfer on 2-12-1975 under Ex. M-1 he has clearly qualified himself to be entitled to a transfer on his own right in the light of the transfer policy settled under Ex. M-10. One year later, the Claimant W.W.1 has also sent a reminder to the Management under Ex. M-2, on 6-12-1976. Therefore, the Petitioner-Union which is sponsoring the cause of the Claimant W.W.1 has pointed out under Ex. M-3, on 7-3-1977 that the Claimant may be transferred to Tuticorin. From Exs. M-1 and M-2, it can be held that W.W.1's request was to transfer him from Madras to his native place Tuticorin. That means the request is made to transfer him from the Madras Divisional

Office to the Madurai Divisional Office under which Tuticorin comes. As per clause 4(c) of the transfer policy settled under Ex. M-10, all applications for transfer from one division/zona to another will have to be addressed to the Central Office of the Bank through proper channel and such applications will be entered in a register maintained at the respective Zonal Offices strictly according to the date of receipt of the applications. Register of applications for transfer within the division shall be maintained at the divisional headquarters. Therefore according to this clause, the application for transfer made under Ex. M-1 by W.W.1 must have been entered in a register maintained in the Zonal Office. But significantly, while the Management has produced Exs M-13 and M-14, photostat copies of extract from the Request Transfer Register maintained by the Divisional Office, Madurai for obvious reasons, the Management has not produced extract from the register maintained at the Zonal Office or Madras Divisional Office of the Management indicating the request made by W.W.1 under Ex. M-1 for a transfer from Madras to his native place Tuticorin which comes within the another Divisional Office. Therefore there is considerable force in the submission that the transfer of W.W.1 from Madras was not pursuant to the request that he has made under Ex. M-1. This view is also fortified by other attending circumstances.

Ex. M-4 dated 11-5-1977 is the communication of the Assistant General Manager of the Management Bank, Madras to the Addison Buildings Branch Office, Madras and copy to Divisional Office, Madras and Divisional Manager, Madurai. It may be noted that Assistant General Manager has specifically made a note in Ex. M-4 that "This has reference to the discussions we had with you when you were here recently." Neither in this note nor in the body of order Ex. M-4 is there any whisper that W.W.1 has been transferred to the Divisional Office, Madurai on the request earlier made by him. Furthermore, the last and the penultimate column in the request transfer registers would indicate the place to which transfer and the date and the remarks if any. This can be seen from Exs M-13 and M-14 relating to Divisional Office, Madurai. In this context, the non-production of the extract from the Request Register Maintained at the Divisional Office, Madras or Zonal Office, Madras would indicate that if those registers are produced they would not go to support the stand now taken up by the Management in the counter that the transfer of W.W.1 was a request transfer. In any view, from the tenor and spirit of the order passed under Ex. M-4 it can be easily concluded that the transfer was not on consequent to the request made by the employee.

(5) As already pointed out the employee W.W.1 was relieved at the Addison Buildings Branch at close of business of 27th May, 1977. As per Ex. W-1, he was instructed to report at Madurai Divisional Office on 28th May, 1977 positively. Accordingly, W.W.1 reported for duty at Madurai Divisional Office on 28th May, 1977. Then and there he was also served with a memo Ex. W-2 that he is posted to work at Tuticorin office in the same capacity and was instructed to report for duty at Tuticorin on 30-5-1977. It is common case that T.A. for transfer is never granted for request transfer. In the present case, it is not gainsaid that the Manager of Addison Buildings Branch sanctioned advance to W.W.1 when he was relieved on the afternoon of 27-5-1977. It cannot be that the Manager was not aware of the circulars issued by the Management on administrative or request transfers consequent on the settlement entered into under Ex. M-10. There is no such case put forward in the counter statement of the Management. Therefore, the grant of Travelling Allowance advance by the Manager, Administrative Buildings Branch would go to probabilities a case of administrative transfer rather than request transfer. As per the Memo Ex. W-2 handed over by the Divisional Manager, Divisional Office, Madras, W.W.1 was instructed to report for duty at Tuticorin office positively on 30-5-1977 at 9.45 A.M. Although such an order has been passed under Ex. W-2 it is undisputed that the Madurai Divisional Manager who is the controlling authority for the entire Madurai Division had in fact sanctioned joining time of one week. Thus the grant of joining time (although was not availed of by W.W.1) by the Madurai Divisional Office

would further confirm the view of the Management as evidenced by the advance given by the Manager at Addison Building, Madras that W.W.1's transfer was only administrative transfer rather than a request transfer. It is also not disputed that by about May, 1977 arrangements were made by the Madras Zonal Office for bifurcation of Zonal Office into Regional Offices. Ex. W-3 is the copy of the letter from the Secretary, Central Bank Employees' Association, Madurai. It is the recognized majority Union. The first sentence in Ex. W-3 is significant. In that, this Union has been informed by the Divisional Office, Madurai that the transfer of Thiru E. Lakshminarayana Perumal, Assistant Cashier transferred from Addison Buildings to Madurai Division and posted to Tuticorin Office has been effected by the Management consequent on the arrangement of the bifurcation of Zonal Office into two Regional Offices. Therefore it can be seen that even by the 1st week of June, 1977, the Management specially Madurai Divisional Office has treated this transfer of W.W.1 only as an administrative grounds and not a request transfer. Moreover, in paragraph (3) of Ex. W-3, it can be gathered that Divisional Office, Madurai has instructed Tuticorin Branch to treat his transfer as transfer by the Management for its exigencies. Hence it is abundantly clear that even according to the Management the transfer of WW1 was a transfer by the Management for its exigencies and not a request transfer.

(6) As per clause 4(f) of the transfer policy settled under Ex. M-10, an employee who is transferred on his own request shall not be eligible for any travelling expenses for self or his family members and no joining time shall also be granted. While so as seen from Ex. W-3, W.W.1 was allowed by the Management to officiate in the place of Head-Cashier 'C' attending to the Extension at St. Mary's College, Tuticorin. Therefore, if really in fact the transfer was on request, certainly as per the terms of Ex. M-10, the Management would not allow W.W.1 to officiate in the place of Head-Cashier 'C' attending to the Extension at St. Mary's College, Tuticorin, because if it were a request transfer he would not be entitled to promotion before completion of 30 months of service at the place of transfer. That apart on 18th July, 1977, W.W.1 was advised by the Tuticorin office to proceed to Kayalpatnam branch to officiate in a higher cadre as 'B' grade Head Cashier—vide Ex. W-5. That again confirms the real position that the transfer of WW1 was on administrative grounds rather than as a request transfer.

(7) Normally, any transfer to be considered as a request transfer would only be from the station in which employee is working to another station requested for by the employee. In other words when W.W.1 is transferred from Madras he was not transferred to Tuticorin nor was he transferred from Madras to Madurai on the specific understanding that he will be transferred to Madurai. Merely because when WW1 reported for duty at Madurai office he was given another memo under Ex. W-2 to report to duty at Tuticorin does not necessarily follow that the transfer was consequent on the request made by W.W.1. Neither in Ex. W-1 nor in Ex. W-2 is there any whisper that the process of transfer was consequent on the request made by the employee. I have already pointed out that even as per the stand of the majority Union under Ex. W-4 dated 7-6-1977 the Management has passed orders that the transfer was not based on the request of the employee but was done as per requirements of the institution. The learned authorised representative for the workman further points out in these circumstances that because no order was given to the employee from Madras (i.e.) transferring him to Tuticorin it cannot be considered that it was a request transfer. Support for this position is also sought to be had in the case of transfer of one Thiru T. K. Prabakaran, Clerk of Nagercoil branch under the jurisdiction of Madurai Division to Calicut branch under the jurisdiction of Cochin Division in the District of Kerala, where he was given transfer directly to Cochin. This fact specifically mentioned in paragraph (10) of the Claim Statement has not been specifically denied by the Management in the counter statement filed. On the other hand, referring to the claim made in paragraph (10) of the claim statement this is what the Management has to say in paragraph (7) of the counter statement: "In para 10 of his petition, the petitioner employee gives his own interpretation on the transfer effected." Thus the Management could not refute the fact that when a transfer is made on request even though from one Division to another the place

to which the transfer is effected is specifically mentioned. Moreover, in paragraph (19) as numbered in the claim statement at page 7 although it should have been only paragraph (20), it is claimed that one Thiru Ponniah had also applied for a transfer earlier to some station in Madurai Division along with W.W.1 and his request was also treated as an administrative transfer and Thiru Ponniah enjoyed the fruits of administrative transfer and got his promotion without any waiting period as envisaged in Ex. W-10 for promotion in the case of request transfer. Dealing with this claim, the Management in paragraph (18) of the counter states that as far as Ponniah is concerned, there was a mistake in handling his matter and the Management is initiating steps in this regard to rectify the same in the light of the transfer policy agreement Ex. M-10. The Petitioner-Union has filed a rejoinder statement and in paragraph (11) it has been stated that Thiru Ponniah has been confirmed as an Officer of the Bank on 1-3-1981 after one year of probation in that cadre as per rules and he has been sanctioned his 1st grade increment in officer cadre with effect from 1-3-1981. This rejoinder statement by the Union had been filed before this Tribunal on 21st May, 1981 and the Management not to lag behind has also filed a rejoinder to this rejoinder filed by the Union. That statement has been filed on 5-6-1981. Even in this statement, the facts relating to the promotion of Thiru Ponniah has not been specifically challenged by the Management. Furthermore, it is also stated that Thiru Ponniah has also been invited for foreign exchange officers interview in the bank's specialised cadre for which only officers who have completed one year of service are eligible. In the face of these materials, the plea of the Management that a mistake has arisen with regard to Ponniah is not entitled to much weight. Under these circumstances, from the fact that the order of transfer did not specify the place requested by W.W.1 and also the fact that even after assuming charge at Tuticorin, the employee has been promoted in the teeth of the provisions contained in Ex. M-10 would only go to indicate that W.W.1's transfer was on administrative ground rather than request transfer.

(8) The employee W.W.1 is a member of Central Bank of India Staff Union (Petitioner-Union) a minority and unrecognised trade Union in the Management-Bank. While so, the Central Bank of India Employees Union, Madras and its sister organisation the Central Bank Employees Association, Madurai, both recognised by the Management and majority unions have protested the Management in the 1st week of July, 1977 against the transfer of W.W.1 being treated as on administrative grounds—vide Exs. W-3 and W-4 and the majority registered and recognised Union called upon the Management to treat the transfer of WW1 as treated by the Management. The Management-Bank had considered the objection raised by the recognised Union and eventually thought that the transfer of W.W.1 from Madras was only a request transfer and accordingly W.W.1 was informed under Ex. W-6 (27-7-1977). Because W.W.1 is a member of the Petitioner-Union, the Petitioner-Union took up the matter of W.W.1 with the Chairman and Managing Director of the Management-Bank. Eventually, the Central Office of the Management Bank confirmed the earlier decision treating W.W.1's transfer as an administrative one. This was later confirmed by a telex message sent to the General Secretary of the Petitioner-Union by the Regional Office of the Management-Bank on 21st July, 1981—vide Ex. W-9, whereby the transfer has once for all been decided on administrative grounds. Ex. W-10 is also telex instruction received from Central Bank of India, Bombay on 21-7-1978. Consequently, the Tuticorin office under Ex. W-11 had also informed W.W.1 that W.W.1's transfer from Addison Building, Madras to Tuticorin was effected as per the exigencies of the Management only. Thus it is abundantly clear that even after considering the objections raised by the recognised and majority Union under Exs. W-3 and W-4, ultimately, the Management-Bank has confirmed its earlier view that the transfer of W.W.1 from Madras to Tuticorin was as per the exigencies of the Management on an anxious and careful consideration of the entire evidence is perfectly clear that the employee Thiru E. Lakshminarayana Perumal was transferred from Madras to Tuticorin by the Management only on administrative grounds and accordingly the employee W.W.1 will be entitled to the attendant benefits in accordance with the rules prevalent in the Management-Bank.

(9) However, the ultimate decision of the Head Office of the Management was not relished by the recognised majority Union, namely, Central Bank of India Employees Union, Madras and therefore on 19-9-1978, the Circular Ex. W-13 was issued threatening about a strike and industrial unrest if the employee's transfer was not treated as a request transfer. The tone and tenor of contents of Ex. W-13 would speak for themselves. Ex. W-16 is the revised order passed by the Management treating W.W.1's transfer as a request transfer. Admittedly Management did not hear W.W.1 or Petitioner-Union before passing the adverse order against W.W.1. Significantly, the Management-Bank failed to produce the actual instructions said to have been given from Divisional Office to the Tuticorin Branch. No reason or ground is disclosed. Moreover, as W.W.1's transfer pointed out the earlier decision to treat W.W.1's transfer as an administrative one has been taken by the Management-Bank at its highest level, namely, Central Office, Bombay. Therefore great weight cannot now be attached to the subsequent order said to have been passed by the Management at the Divisional Office level. That does not in any way detract the worth of W.W.1's case that his transfer from Madras to Tuticorin was only on administrative grounds. It may be that W.W.1 had made a request to transfer him to Tuticorin and that was pending and that it must be remembered that the Management did not see its way to grant the requisition till May, 1977 WW1 has also sent a reminder one year later under Ex. M-2 and the Petitioner-Union which is espousing the cause of WW1 has also sent a letter on 7-3-1977 Ex. M-3. While the hard fact remains that WW1 had in fact made a request for transfer, the Management could not find any way to accommodate him and therefore when eventually when an occasion arose due to bifurcation of the Zonal Office, the Management on administrative grounds either ignoring or quite oblivious of or despite the request made by WW1 has transferred him from Madras to Madurai Divisional Office on administrative grounds. It is the Management's prerogative to arrange its work and once the Management has transferred an employee on administrative grounds, there is no justifiable or rational basis for subsequently considering it on as a request transfer. Just because the cause of WW1 is championed by unrecognised minority follow that the cause is any the less shallow or devoid of any merit. Justice is not the monopoly or prerogative of the majority only. When WW1 has been transferred only on administrative grounds it has to be considered only as on administrative grounds and as such he will be entitled to all the benefits following from on a transfer of administrative grounds.

(10) In the result, an Award is passed holding that the transfer of Thiru E. Lakshminarayanan Perumal, Assistant Cashier from Addison Buildings Branch, Madras to Madurai Division and then to Tuticorin cannot be considered to be as a 'request transfer' and hence the employee Thiru E. Lakshminarayanan Perumal W.W. 1 will be entitled to all consequential benefits and rights according to him as "transfer on administrative grounds." I direct the Management to pay a cost of Rs. 300 to the Petitioner-Union which espouses the cause of the employee W.W. 1.

Dated, this 7th day of July, 1981.

## AWARD

The Central Govt, as appropriate Govt. vide its Order No. L-29011/11/80-D.III.B, dated the 31st May, 1980 referred an Industrial Dispute in the following terms u/s 10 of the I.D. Act to this Tribunal :

“Whether the following demands of the workers employed in the Lime Stone Mine of Shri Ida Bhai, Mine Owner P.O. Suket, District Kota are justified ? If so, to what relief the workmen are entitled :

1. Upward revision of rate of daily wage of unskilled workers.

2. Enhancement of piece rate for Store Cutters.
3. Rationalisation and introduction of suitable pay scale for the clerical and other staff employed in the mine.
4. Provision of medical facilities.
5. Grant of two extra paid festival holidays.
6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act.'

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared and so had the Management side. In consequence the statement of claim was filed. Thereafter a written statement was filed and in as much as afterwards none appeared for the Management side, ex-parte proceedings were ordered against the Management and ex-parte evidence was ordered to be recorded and on the pleadings of the parties one issue was framed by me in the following terms vide my order dated 1-12-80 :

'As in the order of reference' ?

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this issue.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone workers and the respondent was owner of a Lime Stone Mine; that the respondent had not been paying proper wages as other Lime Stone owners are paying, therefore the matter was taken up and the present reference has been made by the appropriate Govt.

4. In its written statement the Management has not challenged the factum of Rashtriya Mazdoor Sangh being a registered trade union of Lime Stone Workers but it has been stated that the respondent was not owner but a lease holder of certain Lime Stone Mines and has been regularly paying minimum wages in accordance with the wages fixed by appropriate Govt. and the workers were not entitled to any relief.

5. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta s/o Shri Jamma Lal who has described himself in para No. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines, while most of the other Lime Stone owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Govt. to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

7. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side had led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other

staff is called for or can be done. Likewise there is a absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

8. It may incidentally be mentioned here that the appropriate Govt. had vide its order No. S. 32019(VI)/79-WC(MW) dated the 12th September, 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Govt. has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rate, cost of leaving allowance cash value of concessional supply and wages for the weekly rest and are also applicable to employers employed by contractors which term would include the lease holder of the present type also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reason no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision for medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Govt. has revised minimum rates of wages in respect of employees employed in Stone Mines which term would include lime stone mines, would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of regular pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference what-so-ever.

9. The matter may be considered from yet another angle. The workmen side has failed to produce any figures showing their output of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Furthermore now that minimum wages have been revised by the appropriate Govt. in respect of workers working in Stone Mines Industry including the Lime Stone Mines, it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

10. In view of my discussions above, I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However, parties are left to bear their own costs.

#### Further ordered :

That requisite number of copies of this award may be sent to the appropriate Govt. for necessary action at their end.

### AWARD

The Central Govt. as appropriate Govt. vide its order No. L-2911/13/80-D.III.B dated the 31st May, 1980 referred an Industrial Dispute u/s 10 of the I.D. Act to this Tribunal in the following terms :

'Whether the following demands of the workers employed in the Lime Stone Mine of Shri Mohammed Shoket Niaz Mohammed, Mine Owner, P.O. Suket, District Kota are justified ? If so, to what relief the workmen are entitled ?

1. Upward revision of rate of daily wage of unskilled workers.
2. Enhancement of piece rate for stone cutters.
3. Rationalisation and introduction of suitable pay scales for the clerical and other staff employed in the mine.
4. Provision of medical facilities.
5. Grant of two extra paid festival holidays.
6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act.'

2. On receipt of the reference it was ordered to be registered and usual notices were issued to the parties while one Shri Ram Gopal appeared for the workmen, one Shri L. C. Jain appeared for the management. Thereafter a statement of claim was filed by the workmen and a written statement was filed by the management. However, after that none appeared for the management side. With the result that ex-parte proceedings were ordered against the management and ex-parte evidence was ordered to be recorded. Ex-parte evidence has been recorded and arguments of Shri Ram Gopal have been heard. After giving my considered thought to the matter before me I have come to the following findings in this reference.

3. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone workers and the respondent was owner of a Lime Stone Mine, that the respondent had not been paying proper wages as other Lime Stone owners are paying, therefore the matter was taken up and the present reference has been made by the appropriate Government.

4. In its written statement the Management has not challenged the factum of Rashtriya Mazdoor Sangh being a registered trade union of Lime Stone workers but it has been stated that the respondent was not owner but a lease holder of certain Lime Stone Mines and has been regularly paying minimum wages in accordance with the wages fixed by the appropriate Govt. and the workers were not entitled to any relief.

5. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta s/o Shri Jamma Lal who has described himself in para No. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only other thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines while most of the other Lime Stone Mine owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Govt. to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

7. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side had led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

8. It may incidentally be mentioned here that the appropriate Govt. had vide its order No. S.32019(VI)/79-WC(MW) dated the 12th September 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Govt. has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification that this minimum rate of wages is all inclusive of basic rate, cost of leaving allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees employed by contractors, which term would include the lease holder of the present type also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rates of wages. It may also be mentioned here that for the same reason no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision for medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Govt. has revised minimum rates of wages in respect of employees employed in Stone Mines, which term would include lime stone mines would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of regular pay scales or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference whatsoever.

9. The matter may be considered from yet another angle. The workmen side has failed to produce any figures showing their output of production or to bring out the incidence of financial burden or expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Further more now that minimum wages have been revised by the appropriate Govt. in respect of workers working in Stone Mines industry including the Lime Stone Mines, it is natural that further revision would be made in accordance with the provisions of Minimum wages Act as and when such necessity would arise.

10. In view of my discussion above, I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However parties are left to bear their own costs.

Further ordered :

That requisite number of copies of this award may be sent to the appropriate Govt. for necessary action at their end.

6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act."

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared and so had the Management side. In consequence the statement of claim was filed. Thereafter a written statement was filed and in as much as afterwards none appeared for the Management side ex-parte proceedings were ordered against the Management and ex-parte evidence was ordered to be recorded and on the pleadings of the parties one issue was formed by me in the following terms vide my order dated 1-12-80 :

'As in the order of reference?'

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this issue.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone workers and the respondent was owner of a Lime Stone; that the respondent had not been paying proper wages as other Lime Stone owners are paying therefore the matter was taken up and the present reference has been made by the appropriate Government.

5. In its written statement the Management has not challenged the factum of Rashtriya Mazdoor Sangh being a registered trade union of Lime Stone workers but it has been stated that the respondent was not owner but a lease holder of certain Lime Stone Mines and has been regularly paying minimum wages in accordance with the wages fixed by the appropriate Government and the workers were not entitled to any relief.

6. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta S/o Shri Jamna Lal who has described himself in para No. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only other thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines while most of the other Lime Stone Mine Owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

7. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Government to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

8. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side has led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

9. It may incidentally be mentioned here that the appropriate Government had vide its order No. S.32019(VI)/79-WC(MW) dated the 12th September, 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Government has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rate, cost of leaving allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees employed by contractors, which term would include the lease holder of the present type also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reason no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision for medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Government has revised minimum rates of wages in respect of employee employed in Stone mines which term would include lime stone mines, would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of suitable pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference whatsoever.

10. The matter may be considered from yet another angle. The workmen side have failed to produce any figures showing their output of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Further more now that minimum wages have been revised by the appropriate Govt. in respect of workers working in Stone Mines Industry including the Lime Stone Mines it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

11. In view of my discussions above. I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However parties are left to bear their own costs.

Further ordered :

That requisite number of copies of this award may be sent to the appropriate Government for necessary action at their end.

Colliery of Eastern Coalfields Limited.

AND

Their Workmen.

**APPEARANCES:**

On behalf of Employers : Mr. M. N. Kar, Advocate, with  
Mr. P. N. Malvai, Dy. Chief Personnel Officer.

On behalf of Workmen : Mr. S. Roy, Advocate, with  
Mr. S. Sen, Organising Secretary of the Union.

STATE: West Bengal.

INDUSTRY: Coal Mine

**AWARD**

By Order No. L-19012(25)/77-D-IV(B), dated 24th December, 1977 of the Government of India the instant reference has been sent to this Tribunal for adjudication of an industrial dispute between the employers in relation to the management of Sodepur Colliery of Eastern Coalfields Ltd., hereinafter referred to as the "Colliery" and their workmen represented by the Organising Secretary, Colliery Mazdoor Sabha (AITUC), G. T. Road, Asansol, Distt. Burdwan, hereinafter referred to as the "Union". The dispute has been mentioned in the Schedule to the order of reference in the following words:

"Whether the action of the management of Sodepur Sub-Area of Eastern Coalfields Limited, District Burdwan in dismissing Shri Ajit Choudhury, Line Mazdoor with effect from 22nd March, 1976 is justified? If not, to what relief is the concerned workman entitled?"

2. In this reference the parties adduced evidence and in fact arguments were heard in part and thereafter on some question additional evidence was adduced and during the hearing a date was fixed for appearance of witness on behalf of the colliery. At that time a joint petition was filed informing the Tribunal that the matter was likely to be compromised. Today was the date fixed for filing compromise petition. Mr. M. N. Kar, learned Advocate appears on behalf of the colliery along with the Deputy Chief Personnel Officer of the management and Mr. S. Roy, learned Advocate appears on behalf of the Union along with Mr. S. Sen, Organising Secretary. They file a joint petition of compromise and submit that the matter has been amicably settled according to the terms embodied in the petition. Their prayer is that an award may be passed according to the said terms treating the petition as a part of the award.

3. I have heard the learned Advocates of the parties. I have also heard Mr. S. Sen, Organising Secretary of the Union and Mr. P. N. Malvai, Deputy Chief Personnel Officer of the Colliery. I am satisfied that the terms mentioned in the joint petition of compromise are for the benefit of both the parties and for the best interest of the relation between the management and the labour. The petition is voluntary and legal. As prayed for by the parties, I pass an Award in terms of the joint petition of compromise marked Annexure "A" which shall form part hereof.

R. BHATTACHARYA, Presiding Officer.

#### AWARD

This is a reference made by the Government of India in the Ministry of Labour to this Tribunal for adjudication of the following dispute vide Notification No. L-22012(2)/80-D.IV(B), dated 4th August, 1980:—

“Keeping in view the nature of duties performed by S/ Shri Kamod, T. No. 1530, Rohini, T. No. 1616 and Nanha, T. No. 1531 of Birsinghpur Colliery, Post Office Birsinghpur Pali, District Shahdol, whether the action of the management of Birsinghpur Colliery of Western Coalfields Limited in not paying them Category III wages and not designating them as Loading Mates is justified? If not, to what relief are the concerned workmen entitled?”

2. On receipt of the reference parties were noticed to file their respective pleading and documents. After the pleadings and documents filed by the parties and admissions and denials made thereon the case was fixed for evidence of the parties on 16-1-1981. But before adducing oral evidence parties submitted that negotiations for mutual settlement are in progress and the matter is likely to be settled amicably by 9-2-1981. Therefore the case was adjourned to 9-2-1981 for filing of settlement and parties were directed to keep their witnesses present in case the settlement is not arrived at between them. On 9-2-1981 though the witnesses on behalf of the workmen were present yet the Counsel for the management sought an adjournment on the ground that no one from the management has come to instruct him. Thereafter as many as five adjournments were sought by the parties and ultimately on 22-7-1981 Counsel for the management filed a Memorandum of Settlement duly signed by Shri L. Saxena, Deputy Personnel Manager (IR) on behalf of the management and Shri G. C. Jaiswal, General Secretary Johilla Colliery Mazdoor Sangh for the workmen. Parties requested that an award in terms of the settlement arrived at between the management and the union be passed.

3. I have perused the terms of the settlement arrived between the parties and am of the view that the terms of settlement as incorporated in the Memorandum of Settlement are fair, reasonable and beneficial to the workmen concerned. Accordingly the following awards given in terms of the settlement arrived at between the parties:—

1. That S/Shri Kamod, Nanha and Rohini shall be designated as Mates.
2. That whenever there is no supply of wagons and in consequence no work of mates is available for S/ Shri Kamod, Nanha and Rohini they shall be given alternate jobs at surface e.g. Trammers, in blacksmith shop, Carpentry Shop, Saw Machine Shop etc.
3. That S/Shri Kamod, Nanha and Rohini shall be placed in Category II from 1-1-1980 and Category III from 1-1-1981.
4. That no past claim shall accrue for S/Shri Kamod, Nanha and Rohini except in item no. 3 above.
5. That the dispute between the parties shall in the light of the above stands finally resolved.

In view of the mutual settlement arrived at between the parties, both parties shall bear their own costs as incurred.

S. R. VYAS, Presiding Officer.

#### APPEARANCES :

For Complainant—Shri R. C. Bajpai, Advocate.

For Management—Shri P. S. Nair, Advocate.

#### AWARD

Two applications have been made in an industrial dispute (Reference No. 44 of 1980 between the Management of West Jharkhand Colliery of Western Coalfields Limited, P.O. Jharkhand Colliery, District Surguja and their workmen) one by Shri Janeshwar Tiwari (registered as Case No. CGIT/LC(A)(6)/80) and the other by Shri Rameshwar Tiwari (registered as Case No. CGIT/LC(A)(7)/80). The facts alleged in both these applications relate to one and the same matter and one and the same incident. The objections raised by the Management against the maintainability of both the applications are the same. Accordingly both the applications are being disposed of by a common order. The award given in this case will also therefore, govern the award in the other case namely Case No. CGIT/LC(A)(7)/1980.

The facts material for the disposal of these applications are these :—

1. Case No. 6 of 1980—Shri Janeshwar Tiwari.

In this application the applicant has alleged that the applicant is employed as Grade I Clerk in the account section of the Jhimar Colliery of Jhagrakhand area of which N.A. No. 1 is the Manager and N.A. No. 2 is the General Manager; that the N.A.s. are unhappy with the applicant because of his being an active worker of certain Unions of the Colliery workers; that on 2-7-1980 there was an incident (the details of which are not necessary to be stated here in which he was subjected to physical violence; that there was a formality of some enquiry and that as a result of the enquiry the applicant was dismissed from service on 30-9-1980.

The applicant has further stated that an industrial dispute (Reference No. CGIT/LC(R)(44)/1980) in the matter of Ramjiwan workman and employers in relation to the management of West Jhagrakhand Colliery is pending (since decided—Award dated 24-3-1981—published in the Gazette of India, Part—II Section 3—Sub-section (ii) dated May 2, 1981 at page 1401) before this Tribunal and that the dismissal of the applicant during the pendency of the reference arising out of an industrial dispute was in contravention of Sec. 33 of the I.D. Act and that he is entitled to be reinstated with all the consequential and incidental benefits.

2. Case No. 7 of 1980—Shri Rameshwar Tiwari.

In this application the applicant has alleged the same incident of Shri Jaeshwar Tiwari being involved in the incident dated 2-7-1980 in which he claims to have rushed to the rescue of Shri Janeshwar Tiwari and he was also said to have been threatened to have been assaulted. He further alleged that in spite of the pendency of the industrial dispute of Shri Ramjiwan before this Tribunal he was dismissed on 21-11-1980. Such a dismissal, according to him, was in contravention of the provisions of Sec. 33 of the Act and he was entitled to reinstatement with all consequential and necessary benefits.

2. Both the applications are opposed by the management on the ground specified in Sec. 33(1)(b) of the Industrial Disputes Act, hereinafter referred to as the Act. These provisions are as under :—

“33-Conditions, etc. of service, to remain unchanged under certain circumstances during pendency of proceedings—

- (1) During the pendency of any conciliation proceeding before (an arbitrator) a Conciliation Officer of a Board or of any proceeding before Labour Court or Tribunal or National Tribunal in respect of an industrial dispute, no employer shall—

(a) .....

- (b) For any misconduct connected with the dispute, discharge or punish whether by dismissal or otherwise, any workmen concerned in such dispute, save with the express permission in writing of the authority before which the proceeding is pending.”

3. It is contended that the impugned orders of dismissal passed against both the applicants are in respect of such workmen who were neither connected nor concerned with the dispute in Ramjiwan's case. Ramjiwan's case, as already stated, has already been disposed of and an award has been given in that case on 24-3-1981. That award was given as per settlement arrived at between the parties and has been published in the Gazette of India, dated May 2, 1981 part II-Section 3(ii) at page 1401. The dispute in that case related to the justification or otherwise of the termination of the services of Shri Ramjiwan, a Timber Mazdoor, employed by his employers i.e. the present N. As. In that award there is no mention as to how the present applicants S/Shri Janeshwar Tiwari and Rameshwar Tiwari were concerned with the industrial dispute in relation to Shri Ramjiwan. Prima facie, therefore, the award in Ramjiwan's case has no indication of the present applicant's connection or concern with the industrial dispute in that case.

4. Learned Counsel for the applicants contended that Shri Ramjiwan was an employee in the same Colliery in which the applicants are employed; that they are the members of the same union of employees of which Shri Ramjiwan was

a member and that on these grounds the present applicants should be treated as being connected and concerned with the dispute in Ramjiwan's case.

Lastly, it was contended that since the applicants were dismissed from service on the dates mentioned above when Shri Ramjiwan's industrial dispute was pending before this Tribunal the N. A. management violated the mandatory provisions of Sec. 33(1)(b) of the Act.

5. On behalf of the management it was contended that on a plain reading of the allegations made in both the applications it is evident that the applicants have not said a word as to how they were either connected or concerned with the dispute in Ramjiwan's case; that in spite of specific objection being taken by the management the applicants have not made any attempt to plead those facts which could show that they were in any way connected or concerned with the dispute in Ramjiwan's case and on this ground alone both the applications are liable to be dismissed.

6. I have considered the respective contentions of both the parties. In my opinion, both the applications are liable to be dismissed for the following reasons.

7. It is clear from the provisions of Sec. 33(1)(b) of the Act as reproduced above that the bar for an order of discharge or punishment, whether by dismissal or otherwise, in respect of any workman operates only in such cases where a workman is either connected with or concerned in any dispute which is pending before the Tribunal. The allegations made in the complaints merely indicate that both the applicants are employed as workmen with the N. As; that there was certain incident on 2-7-1980, that in that incident they were allegedly subjected to physical violence that an enquiry for misconduct said to have arisen during the course of that incident was held by the management and that as a result of the enquiry they were awarded punishment of dismissal from service. There is no mention whatsoever in both the applications as to how that incident resulting in their dismissal was in any way connected with the dispute in Ramjiwan's case or how they were concerned in that dispute.

8. The words “connected with the dispute” and “concerned in such dispute” prima facie show that an order of discharge or punishment, whether by dismissal or otherwise, should be the outcome or should have some connection with the dispute pending before the Tribunal. These words also indicate that the workman, whose grievance is about any order of discharge or punishment, should be concerned with that dispute which is pending before the Tribunal. Unless these two conditions are satisfied the provisions of Sec. 33(1)(b) cannot be relied upon for making a grievance under Sec. 33-A of the Act against the employer.

9. The words “connected with the dispute” and “any workman concerned in such dispute” have been the subject of two decisions of their Lordships of the Supreme Court in *M/s. New India Motors (P) Ltd. New Delhi Vs. K. T. Morris* (AIR 1960 SC 875) and *Digwadih Colliery and Ramji Singh* (1964-II-LLJ p. 143). In *M/s. New India Motors* case a Field Service Organizer's services were terminated allegedly on the ground that the Company abolished the post, but really because he supported the cases of seven apprentices who were under him. Upon the termination of their services an industrial dispute was raised. In that dispute the Field Organizer gave evidence in this favour. Because of this, the Company was provoked and after taking certain steps terminated the services of the Field Organizer. On these facts, their Lordships held that the pendency of the dispute referred to in Section 33 should not be confined to those workmen only who are directly concerned in it but should also confine to those workmen indirectly concerned in it and that during the pendency of such an industrial dispute status quo should be maintained, otherwise the very object could be defeated.

10. Reliance on this decision was placed on behalf of the workman. But as stated above, there are no allegations in this case even to give the slightest indication as to how these two applicants were directly or indirectly connected with or concerned in the dispute in the matter of Ramjiwan. Shri Ramjiwan may have been a member of the same union of which the applicants are members, but even this fact is not alleged in either of these two applications. So on a plain reading of the facts pleaded in these two applications the decision in *M/s. New India Motors* (Supra) cannot be applied.

11. The words “connected with” and “concerned in” which also occur in Sub-section 2 of Section 33 again came up for consideration before their Lordships of the Supreme Court in *Digwadih Colliery Vs. Ramji Singh* (Supra). After

reference to the earlier decision in the case of M/s. New Motors it was held:—

"The Tribunal has then held that the applicant had contravened the provisions of Section 33(2) of the Act in dismissing the respondent. In coming to this conclusion the Tribunal has purported to follow a decision of this Court in the case of New India Motors (P) Ltd., New Delhi Vs. K. T. Morris, and it has observed that the broader view of the requirements of Section 33(2) enunciated by this Court in the said decision supported the respondent's case. In our opinion, this conclusion is also not justified.

Even if the broader construction of Section 33(2) is adopted it is necessary to enquire what was the subject-matter of Reference No. 60 of 1959. The respondent's case set out in this application appears to be that, because there was Reference No. 60 of 1959 pending between the applicant and some of its employees, Section 33(2) applied, but, unless it is known as to what was the nature of the dispute pending in the said Reference, it would plainly be impossible to decide whether the respondent is a workman concerned within the meaning of Section 33(2). In his application the respondent has made no averment about the nature of the said dispute, and so the Tribunal was clearly in error in holding that the broad construction of Section 33(2) automatically led to the conclusion that the respondent was the workman concerned and could, therefore, claim the protection of Section 33(2).

It would thus be clear that the decision in the case of M/s. New India Motors does not support the case of the applicants. As held by their Lordships in Digwadih Colliery's case the workman has to plead and prove also how he was "connected with" or concerned in" dispute pending before the Tribunal. As already mentioned above, the applicants have in their applications referred to the case Reference No. 44 of 1980 of the industrial dispute in Ramjiwan's case and have not cared even to mention the facts leading to that dispute. They have also not cared to say a single word in their applications as to how the incident resulting in their orders of dismissals was in any way connected with or how they were concerned with the dispute in Ramjiwan's case. Accordingly, as held by their Lordships in Digwadih Colliery's case the applicants were required to plead and prove their connection with or concerned in the dispute in Ramjiwan's case. In the instant case, when they have not even pleaded, the question of proof does not and cannot arise. The applicants were fully conscious of the objection taken by the management and parties were heard on this objection also. Even till that stage they made no attempt to show as to how the provisions of Section 33(1)(b) are attracted in this case. The mere fact that an industrial dispute was pending between the one workman and the management will not satisfy the requirements of Section 33(1)(b) of the Act. In the absence of any pleading no amount of evidence could have been allowed to be led. Consequently, in my opinion, the applicants have failed to show as to how any action can be taken against the management under Section 33-A of the Act on the facts alleged by them. Both the applications are, therefore, liable to be dismissed.

12. Consequently for the reasons given above, the awards in this case as well as in the other case no. 7 of 1980 are that both these applications are liable to be and are hereby dismissed. Both the parties shall bear their own costs as incurred.

#### AWARD

This is a Reference under Section 10 of the Industrial Disputes Act, 1947 sent by the Government of India to this Tribunal by virtue of its Order No. L-32012/7/80-D.IV.A dated 27th June, 1980 for adjudication of an industrial dispute between the employers in relation to the management of Calcutta Port Trust, hereinafter referred to as the 'Port Trust' and their workmen represented by the General Secretary, Calcutta Port & Dock Workers Union (AITUC), 27/, Karl Marx Sarani, Calcutta, hereinafter referred to as the 'Union'. The dispute in question has been formulated in the schedule to the order of reference in the following terms :

"Whether the management in relation to Calcutta Port Trust, Calcutta are justified in reducing the pay of Shri Jitendra Nath Manna, Junior Clerk of CME's Department in two States for a period of one year by way of punishment? If not to what relief is the concerned workman entitled?"

2. The case of the Union on behalf of the workman may be stated in short. It has been alleged that the workman concerned Jitendra Nath Manna is a Junior clerk of Chief Mechanical Engineers Department. He was illegally served with a chargesheet for an alleged misconduct and after an illegal enquiry he was found guilty of the charge and punished by reducing his pay in two stages for a period of one year by treating the period of suspension as a part of punishment and lastly he was warned to be careful in future. According to the Union Jitendra Nath Manna for the safety of his money and in apprehension of burglary of his house kept a sum of Rs. 3000 belonging to him in a wooden box inside the almirah of his office on 18-8-76. The Chief Mechanical Engineer came to his department and found that amount of Rs. 3000. At that time Jitendra Nath disclosed that the money was his and the chargesheet served on him stated that he committed misconduct as he kept Rs. 3000 in the wooden box inside a steel almirah used for stationery goods of the office and although he claimed the ownership of the money he could not furnish proper account to the satisfaction of the authority. According to the Union there was no misconduct on the part of the concerned workman and the punishment given to the workman was illegal and bad. In spite of appeal against the decision of the Punishing Authority, no result came and ultimately when the Union raised the dispute, it has come to the Tribunal for decision.

3. The case of the Port Trust is that on 18-8-76 the Chief Mechanical Engineer during inspection found that the steel locker contained a wooden box with Rs. 3000 inside it. Jitendra Nath Manna stated that he had kept his money by securing it with lock. Ultimately the money was handed over to Jitendra Nath Manna with the understanding that he should keep the money in tact till the investigation was completed. The workman was placed under suspension and thereafter he was served with the memorandum of charge dated 1-11-76. A departmental enquiry was held in which he was found guilty. By way of punishment it was held that his pay should be reduced in two stages for a period of one year without effecting his future grade increment, his period of suspension to be treated as on suspension and he should be warned in writing. An appeal was made against that decision but that was dismissed. It has been alleged that the enquiry was legal and the punishment was given with the full authority and the charge of misconduct was proved beyond doubt.

4. Mr D. K. Mukherjee, Labour Officer, appeared on behalf of the management and Mr. Safiruddin Ahmed, Joint Secretary of the Union appeared on behalf of the workman. Several documents were exhibited and the formal proof was

waived by the parties. On the side of the Port Trust MW-1 Pradeep Kr. Mazumdar, Labour Officer of the Port Trust was examined and on the side of the workman the workman himself was examined as WW-1.

5. It has been contended on the side of the Union that in the present case the allegations made by the Port Trust made out no misconduct, that the concerned workman with all his bonafides kept his own money in a wooden box inside the steel almirah of the office without causing any prejudice to the Port Trust, that there was no valid enquiry, that the finding of the Enquiry Officer regarding the guilt of the concerned workman was perverse and not based upon any material and that in any event the punishment given to the concerned workman was shockingly harsh and severe.

6. The memorandum containing the charge framed against the delinquent workman will appear in Ex. M-4. It is dated 1-11-76 signed by the Chief Mechanical Engineer. Jitendra Nath Manna received this on 2-11-76. The charge reads as follows :

"That the said Sri Jitendra Nath Manna is charged with misconduct inasmuch as he kept Rs. 3000 (Rupees three thousand) in a wooden box inside a steel locker used for stationery goods of the A.L.O.'s office and claimed the ownership of the said amount but could not furnish proper account to the satisfaction of the appropriate authority."

The statement of allegations on the basis of which the charge was framed reads as follows :

"The CME accompanied by the Dy. CME visited the office of the Labour Officer and the Asst. Labour Officer on 18-8-76 when the CME detected Rs. 3000 (Rupees three thousand) kept in a wooden box inside the steel locker used for stationery goods, of the ALO's office. Sri Jitendra Nath Manna, Jr. Clerk of the ALO's office claimed the ownership of the said amount (Rs. 3000) but could not furnish the account for the said amount as well as his intention for keeping the money in the office locker of the ALO's office to the satisfaction of the appropriate authority."

7. Admittedly there was an enquiry. At that enquiry several witnesses were examined. There is no dispute that Jitendra Nath Manna kept a sum of Rs. 3000 in a wooden box locked by him inside a steel almirah of his office. There is no dispute either that except Manna nobody claimed that amount at any point of time. It appears from the trend of examination of the witnesses presented by the Port Trust at the enquiry that much attention was given to prove through witnesses that the delinquent could not explain the source of money kept in the almirah. Practically speaking the Enquiry Officer also gave much importance to this aspect of the matter. According to the charge, as mentioned earlier, the allegation was that the misconduct alleged to have committed by the delinquent was for keeping Rs. 3000 in a wooden box inside the locker which was used for stationery goods of the office and for his not being able to furnish proper account about the ownership of that money to the satisfaction of the authority. Clearly, therefore, at best by implication it was a double charge. First charge was that he committed misconduct by keeping that amount in a box inside the locker which was being used for stationery goods of the office and the second misconduct was that he could not furnish proper account about his ownership of the money to the satisfaction of the authority. Admittedly, the Port Trust is guided by the Calcutta Port Commissioners Employees (Discipline and Appeal) Rules, 1964 in the matter of enquiries and appeals. There is no dispute that in these rules misconduct has not been defined. In the present circumstance misconduct means an improper conduct which an employee ought not to have committed according to office discipline and procedure. The allegation in the present case is that Jitendra Nath miscondacted himself by putting money in an almirah which was meant for the office use and for stationery purpose. According to the Port Trust the keeping of personal money or any money in the office almirah by the delinquent was not proper and legal. On this point the admission of delinquent is that he kept his money in the wooden box inside the steel almirah of the

office. For this misconduct, if at all, no evidence was necessary but it appears from the records of the enquiry that the questions were put to the witnesses of the Port Trust regarding the source of the amount kept by the delinquent and the ultimate finding of the Enquiry Officer will appear in Ext. M-9. His finding appears at page 5 in paragraph 9 in one sentence which says, "Being satisfied with all facts I am of the opinion that the charge framed against Sri Manna stands satisfactorily established". There is no finding anywhere that the delinquent committed misconduct by keeping the money inside the almirah or the wooden box belonging to the office or that such keeping was improper. On the other hand, his finding is that he is not satisfied as to how the delinquent acquired that sum of Rs. 3000, that is to say he is not satisfied about the exact source of the money the delinquent kept in the almirah. I cannot accept the finding of the Enquiry Officer as based upon proper evidence. First of all, the second part of misconduct, namely, the alleged inability to account for the money cannot be held as misconduct. In the present case save and except the delinquent nobody claimed that amount. In the charge there is no allegation that the amount belonged either to the Port Trust or to anybody else. In these circumstances, when the delinquent himself claimed that amount there can be no question of disclosing the source of the money. On the other hand, in fact the delinquent made a statement in writing that he acquired that money and that statement has been used in enquiry proceedings. In this view of the matter the second part of the allegation regarding the inability to explain the source of money is not a misconduct.

8. With regard to the first misconduct, as I have already indicated, there was no specific finding on that account. I, therefore, hold that the finding of the Enquiry Officer in respect of the second part of misconduct was perverse and regarding the first part of misconduct no basis was disclosed and as such the finding of guilt arrived at by the Enquiry Officer was improper and illegal.

9. Now let me turn to the evidence adduced before this Tribunal regarding the charge framed. At the time of trial both the parties adduced evidence regarding the charge framed. The delinquent was examined by the Union and on the side of the Port Trust MW-1 was examined. As I have already stated, the second part of the charge alleging misconduct in the matter of inability to furnish proper evidence regarding the source of money kept in the almirah, cannot be held as misconduct. Moreover the delinquent has given sufficient evidence to prove his ownership of the money which is not challenged before this Tribunal.

10. Coming to the first part of the misconduct, namely the keeping of money in wooden box inside the steel almirah of the office, I find the evidence of the delinquent is that he kept his money inside a wooden box which he himself locked. He kept that wooden box inside the steel almirah which MW-1 has stated, was meant for keeping stationery goods. There is no doubt that the almirah and the wooden box were the properties of the Port Trust. The almirah was kept for the office use and for keeping stationery goods. Clearly, it was not meant for any personal use of any of the employees working there. The evidence of the delinquent is that in apprehension of dacoity and theft in his house he kept the said amount for safety in the office almirah. This money was kept about a week before the detection on 18-8-76. The evidence also is that his house was built of mud. He wanted to purchase some land but as the said land was purchased by somebody else that could not be bought by him. The further evidence is that as soon as the money was detected he disclosed that he had kept that money there. In these circumstances I have no doubt at all that the delinquent, a Junior clerk of the Port Trust, was afraid of loosing his money being stolen away at his house which was mud built and as such he kept the money in the office almirah and that money was inside a wooden box locked by him. This keeping of money was not for any immoral purpose. Jitendra Nath kept that money with all his bonafides but there is one difficulty. The almirah belonged to the Port Trust and it was meant for office use and in that almirah stationery goods were kept. It was not his personal property. It was

not part of his duty to keep the money there in course of his employment. That money could have been removed by somebody else without his knowledge and thereby troubles might have arisen. This keeping of money might have created a source of embarrassment and trouble to other co-employees. In these circumstances it must be held that the keeping of money by the delinquent was improper. He ought not to have kept that money in that fashion. When this conduct of the delinquent was not proper and beyond his duties as an employee of the Port Trust, it should be held to be a sort of misconduct though very much minor. As a prudent man he should not have kept that money in such an insecure manner and in the office almirah. On evidence before me, therefore, I should hold that there was a minor misconduct committed by the delinquent while keeping the amount of Rs. 3000 in a wooden box inside the steel almirah of the office. In this respect the first part of the charge has been proved.

11. Now comes the question of punishment. In view of the nature of misconduct I have already mentioned, the punishment meted out to the delinquent is too harsh and severe. This sort of punishment cannot be given by any reasonable and conscientious person. After all the delinquent was a victim of so slight a misconduct in the circumstances as already indicated. This action was not a mala fide one though it was a misconduct. He made no harm to others or to the Port Trust. In the discipline and Appeal Rules, 1964 the lowest degree of punishment appears to be "cen-

sur" appearing in Rule 9 in Part V. In this case it would have been sufficient in my view had the Port Trust authority imposed a punishment of censure simply. That would have been a sufficient warning and a lesson to the delinquent. I, therefore, on the finding of misconduct as stated earlier set aside the punishment given by the Port Trust regarding the reduction of pay in two stages for a period of one year. There is no provision in the Discipline and Appeal Rules for treating the period of suspension during enquiry as punishment. There is no provision also for giving warning in writing as punishment. In this view of the matter I set aside those punishments and instead I impose 'censure' as punishment. I think this punishment will properly guide the delinquent in future. Jitendra Nath Manna shall get consequent reliefs on the setting aside of the punishments given by the Port Trust. The period of suspension during enquiry shall remain not as a punishment but the order of suspension pending enquiry shall be valid passed according to rules and for seven days only. Warning in writing need not be given, as punishment of 'censure' will serve the purpose.

I passed an award accordingly.
